TCL

LUBE-FREE AIR HOIST

Environment friendly power.

The TCL Series lube free air hoist series is able to operate without air supply lubrication, leaving the surrounding environment free of oil mist from the air exhaust. The TCL is recommended for use in any area where oil mist cannot be tolerated such as in food, chemical, or pharmaceutical industries.

1 Lube-Free

Lubrication free operation makes this hoist suitable for specific applications where a clean environment is a necessity.

2 Compact Hoist Body

Extremely compact and lightweight cast aluminum body provides easy operation, transportation, and storage.

3 Unlimited Duty Cycle

Continually operate the hoist without worrying about damage from too many starts per hour, so you can get the work done on your schedule.

4 High Speeds and Precision Control

Extremely fast lifting and precise feathering control (spring-loaded multi-vane motor) for when production efficiency is critical. Adjustable speeds for your needs.

5 Reduced Noise Levels

The external muffler and airtight body contribute to the dampened noise levels and efficient use of air. Low noise levels add to operator comfort.

6 Easy Top Hook Installation

Quickly remove the top hook for any lug mount application by simply removing the pin and sliding the hook out. No disassembly of hoist body required.
